

Assessment Policy 2025-26

Rationale:

We believe that reflective assessment provides information to improve teaching and learning. We gave our children regular feedback on their knowledge, so they understood how to improve. We offer regular reports on their child's progress so that teachers, children and parents are working well together to raise standards for all our children.

Aims and Objectives:

The aims and objectives of assessment in our school are:

- To enable our children to demonstrate what they know. Understand and can do their work.
- To help our children understand. What they need to do next to improve their work
- To allow teachers to plan work that accurately reflects each child's needs.
- To provide regular information for parents that enables them to support their child's learning.
- To provide the principal with information that allows her to make judgments about the effectiveness of the school.

ASSESSMENT

The assessment is divided into two parts – Formative Assessment and Summative Assessment

Formative Assessment

- It takes place during day-to-day practice within ongoing teaching and learning.
- Assesses current achievements to support the planning of the next steps, enabling students to take an active role in the learning process and the setting of short-term targets.

The range of approaches to assess students includes:

- Baseline assessments at the start of the academic year.
- Diagnostic tests at the beginning of each unit/ chapter.
- Students' self and peer assessments.
- Questioning, discussions, quizzes, various online assessments, exit tickets, rubric-based evaluation and other AfL techniques.

Summative Assessment

- It takes place after the learning, focuses on the students' overall achievement, and is used to provide quantitative information on progress to students, teachers and parents.
- May be used formatively to support planning and to set medium- or long-term targets.
- School leaders and teachers monitor the performance of student cohorts, identify where interventions may be required, and work with teachers to ensure students are supported to make sufficient progress and achieve sufficient attainment.

PORTFOLIO: A portfolio is a purposeful collection of student work that showcases their learning journey, progress, and achievements over time. Keeping a portfolio has numerous benefits for students:

Academic Benefits

1. Reflective learning: Portfolios encourage students to reflect on their learning, identifying strengths, weaknesses, and areas for improvement.
2. Tracking progress: Portfolios provide a visual representation of student growth and progress, helping them see how far they've come.
3. Improved self-assessment: Students develop critical thinking skills by evaluating their work and setting goals for improvement.

In addition to the above-mentioned factors, the portfolio consists of the following:

- Enrichment activities
- Skill testing –practice sheets
- RARE/ projects
- Summer/Winter Bonanza
- Class Test papers
- Any certificates won.

Assessment Programme:

Pre-Primary:

- At the Pre-Primary level students are formatively assessed, as they engage in their daily activities. Our approach to assessments in KG with sensitivity, ensures they are age-appropriate, play-based, and aligned with the developmental stage of the children. The emphasis is on holistic development rather than purely academic achievements. Individual profiling is conducted at the end of each term to record achievements across all areas of learning in both KG I and KG II.

Primary (I- V)

In the primary section, the method of Assessment differs for different grades:

- For Grades I and II, there are continuous and formative assessments in various forms.
- For Grades III–V: At this level, there are formative and summative assessments in each term. Formative assessment holds a weightage of 40, and summative holds a weightage of 60.

Middle School (VI-IX)

- At this level, there are formative and summative assessments in each term. Formative assessment holds a weightage of 30, and summative holds a weightage of 70.

Secondary School (X)

- The examination is conducted in theory as well as in practical, depending upon the nature of the subject(s). At this level, there are formative and summative assessments in each term. Formative assessment has a weightage of 20, and summative assessment has a weightage of 80.

Evaluation policy 2025-26

DPS RAK incorporates both scholastic and non-scholastic aspects of evaluation, spread over two terms in an academic year.

- The Online Progress Report card and REAP REPORT are shared with parents twice a year.
- Four parent-teacher meetings are held periodically in addition to the two informal coffee mornings to put forward suggestions and recommendations directly to the Principal.
- The evaluation of scholastic and co-scholastic attainment is reflected on their report card through grades.

Grading for the scholastic Areas is based on an eight-point scale given below for grades KG2 - IX:

KG	
Marks Range	Grade
92-100	A+
83-91	A
70-82	B
59-69	C
49-58	D
40-48	E
0-30	F

Grade I-XI	
Marks Range	Grade
91-100	A1
81-90	A2
71-80	B1
63-70	B2
55-62	C1
48-54	C2
40-47	D
Below 40	E

Co-Scholastic Areas

This consists of Co-scholastic areas where students of Grade I-XI are assessed on a five points scale (A to E)

Learning Skills	Work Ethics	Grade	Description
Visual Arts	Responsibility	A	Excellent
Performing Arts	Independent work	B	Very Good
Communication	Initiative	C	Good
Presentation	Organization	D	Satisfactory
Problem-Solving	Collaboration	E	Needs Improvement
Critical thinking	Self-Regulation		

Research	Attitude
Physical Education	Discipline

Pre-Primary: KG1 and KGII

Students are formatively assessed as they engage in their daily activities. Individual Profiling is done every day to record the achievements in all the areas of learning in both KG1 and KG2.
